

How would you spend \$1,000,000?

So you think you would have no problem spending 1 million dollars?
Well... you have just been awarded this sum of money (let's pretend) for simply being the very unique and nice person that you are.

You have until _____ to spend it all!

1. You may buy **anything** you wish but only **one** of the same type of item. You therefore cannot buy two houses, two family cars, or two boats etc.,
2. You must document all items by showing an ad or a **photo** from a catalogue or a newspaper. You are not allowed to spend over \$250,000 on any item. This includes the expensive purchases.
3. You must **spend all** the money, without going over, and within \$10 of \$1,000,000.
4. **Relatives** and **friends** are not allowed to sell you items unless you have an actual ad from newspapers, catalogues, etc. **Handwritten** adds do not count.
5. Ads must include the **actual price** and **cannot** be **handwritten** in next to the item. Also, written estimates from business are required for any over the phone purchases such as boats, education, or braces.
6. The finished project, including all the work, must be presented in a **folder** (see teacher about it). This folder should be **spotless, neat** and without any kind of damage.
7. All purchased items should be **numbered** next to each picture or add.
8. A master **table** is required at the **beginning** of the folder which is to be set up like the example below. Organize other pages similarly.

<u>Item Number</u>	<u>Description</u>	<u>Cost</u>
1)	Volkswagen "Beetle"	\$25,351
2)	House	\$213,000
	Total	_____

9. The total should show at the bottom of the columns on each page.

10. Written reflection:

How did it feel being a millionaire? Did you enjoy spending the money, please explain. Was the task easy or difficult? Write your thoughts and observations on the provided worksheet and submit it for marking as well.

Request and use as many different catalogues as possible. Most of all, **HAVE FUN!**

WRITTEN REFLECTION

Name: _____

How did it feel being a “pretend” millionaire?

Did you enjoy spending the money? Explain.

Was the task of spending one million dollars easier or more difficult than you thought?

If you had one million dollars in real life how would you really spend the money?

EVALUATION OF:

The \$1,000,000 Project

FINAL MARK = $\frac{\quad}{56} = \quad \% =$
